

TIMEPILOT®

Why Extreme Blue?

The money savings:

- No more estimating (or guessing!) workers' hours.
- Eliminates math errors when calculating time.

The time savings:

- Payroll prep takes minutes, not hours.

The bottom line:

- Extreme Blue pays for itself in just weeks!

TimePilot Extreme Blue Enhanced: Weatherproof and linebacker-tough

Download worker hours from timeclock to smartphone, then upload the data to TimePilot's PC software!

Built in USA

Scan for video

The Clock

- Rugged construction; handles rain, snow, cold, heat, dust, etc.
- Up to 2,000 employees.
- Powered by 4 AA batteries that last a year.
- No monthly fees.

Clocking in after a blizzard.

The App

- Uses Bluetooth® wireless technology to download data collected to your iPhone® or Android™ smartphone.
- Make any corrections necessary, then with just a tap, upload your data to TimePilot's easy-to-use Windows-based software at headquarters.

The Software

- Handles data from multiple Extreme Blue clocks.
- Calculates hours—with rounding & OT—in just seconds.
- Generates a variety of reports; exports data to QuickBooks, ADP or other payroll software or services.

How does it work?

1

Employees clock in or out with just a tap of their iButton.

2

Download data to your smartphone, make any corrections, then upload it via "the Cloud" to headquarters.

3

TimePilot software merges data from multiple clocks, creates reports and exports to payroll services or software.

What's an iButton?

It's a key-sized, rugged identification device that is unaffected by water and most chemicals and comes with a lifetime warranty. iButtons are more reliable than biometrics for identifying individuals and can be reassigned quickly and securely.
